

A05-0074 01-23-04

Application Form

Stora Enso North America Duluth Paper Mill and Recycled Pulp Mill

Name of facility*

Stora Enso North America

Name of parent company (if any)

100 N Central Ave.

Street address

Street address (continued)

Duluth, MN 55807

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. Diane Gobin

Title Environmental Supervisor

Phone 218/628-5276

Fax 218/628-0310

E-mail diane.gobin@storaenso.com

Facility/Company Website storaenso.com

* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ♦ Provide background information on your facility.
- ♦ Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

At the Paper Mill we make supercalendered paper used in catalogs, magazines, advertising inserts and other commercial printing. The Recycled Pulp Mill makes de-inked pulp from scrap paper. The pulp is used as a fiber source at the Duluth Paper Mill, as well as at other paper mills.

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS
322122 322110 _____

3 Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes ☒ No

4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- ☐ Fewer than 50
- ☐ 50-99
- ☒ 100-499
- ☐ 500-1,000
- ☐ More than 1,000

5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

0032

06/30/03

Section A, continued

Expiration Date:

-
- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ♦ Confirm that your EMS meets the Performance Track requirements.
- ♦ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Read the EMS requirements on page 9-12 of instructions.
Tell us if your EMS meets these requirements for:

- | | | |
|----|--|---|
| 1 | Environmental policy _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 2 | Planning _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 3 | Implementing and operation _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 4 | Checking and corrective action _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 5 | Management review _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 6 | Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?) | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 7 | Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?) | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 8 | When did you last update your aspect analysis? (mo/yr) | 06/2003 |
| 9 | Have you completed at least one EMS cycle (plan-do-check-act)? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 10 | Did this cycle include both an EMS and a compliance audit? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 11 | Have you completed an objective self-assessment or third-party assessment of your EMS? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |

0032

06/30/03

If yes, what method of EMS assessment did you use?

Self-assessment

☐ GEMI

☐ CEMP

☐ Other

OMB No. 2010-

Expiration Date:

Third-party assessment

☒ ISO 14001 Certification

☐ Other

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1 What aspect have you selected from the Table on page 29-31?	Accidental Releases - Release history	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Number of releases	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	11	6
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.10	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	production - combined paper mill and recycled pulp mill total	

0032

OMB No. 2010-

06/30/03

Expiration Date:

<p>7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?</p>	<p>The majority of accidental releases in 2000 (9 out of the 11 total) were a result of process upsets. During process upsets, the process sewers were overwhelmed by the volume of wastewater (process water and fiber/pulp). The process sewers would overflow causing minor "floods" that sometimes escaped out doorways. This was addressed by constructing spill containment devices at the doorways to keep water/pulp inside the building when there were process sewer overflows. Also, we revised and/or developed work instructions to reduce or eliminate process upsets.</p>
---	--

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Air Emissions - Emissions of VOCs	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	tons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	293.8	95.1
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.10	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	production - combined paper mill and recycled pulp mill total	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Installed and started up a Regenerative Thermal Oxidizer in October 2001, to oxidize VOCs from the groundwood pulping process. We were required, by our air permit, to install and operate the Regenerative Thermal Oxidizer. Performance standards in the permit required =>90% reduction in VOCs from the groundwood pulping process, but we have actually achieved (and maintain) a reduction of >95%.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

0032

OMB No. 2010-

06/30/03

Expiration Date:

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

First commitment

1 What aspect have you selected from the Table on pages 29-31?	Total water use	
2 What units are you using to quantify this aspect?	gallons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1,740,580,000 gallons	1,770,000,000 gallons
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	production - combined paper mill and recycled pulp mill total	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Water conservation projects will include identifying and improving internal water recycling opportunities, and assessing the water use impacts associated with new projects and equipment.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Second commitment

1 What aspect have you selected from the Table on pages 29-31?	Recycled/Reused Material Use	
2 What units are you using to quantify this aspect?	tons	
3a Is this aspect considered significant in your EMS?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.	The production of recycled fiber from scrap paper (thereby reducing scrap paper going to landfills) has been identified as a positive aspect in our EMS. This commitment will enhance that aspect further by providing additional end-product opportunity for the recycled fiber.	
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	2589 tons of recycled fiber used in our paper production operations	25000 tons of recycled fiber used in our paper production operations
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.1
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	production - paper mill only (dependent on the amount of paper made)	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Increasing the amount of recycled fiber in the paper produced here from the current average of 1% to an average of 10% by 2006. This will be achieved by a management commitment to use the recycled fiber and by identifying and overcoming the barriers to using the recycled fiber at that level.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Third commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect?	tons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	93,865 tons	101,000 tons
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	production - combined paper mill and recycled pulp mill total	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Solid waste includes general trash and grit from log washing (<5% of the total) as well as primary sludge from the wastewater treatment system. This sludge (residue) is both landfilled and used as landfill daily cover. We will investigate options such as land applying and other beneficial re-use for residue. Also decreasing the volume of residue and general trash produced will be pursued by optimizing the production process.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Section C, continued

Expiration Date:

Fourth commitment

1 What aspect have you selected from the Table on pages 29-31?	Discharge of Total Suspended Solids to Water	
2 What units are you using to quantify this aspect?	tons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	32,336 Tons	22,000 Tons
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.2
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	production - combined paper mill and recycled pulp mill total	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Development of improved/revised work instructions and equipment installation for recovery of useable fiber within the process.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	We do not discharge treated wastewater to a surface water, but to the local sanitary district. We have an Industrial Pretreatment Agreement with the sanitary district, however there is not a TSS limit in that Agreement. The TSS discharge reduction goals represent our load of TSS to our wastewater treatment system - our primary clarifier.	

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

Our phones are answered 24-hours per day so that any issues, day or night, can be addressed immediately. If possible, the problem is dealt with immediately. Otherwise, concerns are passed on to the appropriate person. Phone calls or face to face visits help to identify and resolve issues.

Part of our EMS includes a system to respond to community complaints or issues. These communications are tracked so that any trends that develop can be identified and addressed.

2 How do you inform community members of important matters that affect them?

We have had an open house in the past in which we've invited the community to tour the mill site. These tours include sharing information about our environmental performance, on-going efforts to improve the environment, and opportunities for our neighbors to voice their concerns about us.

As required by law, environmental permits are public noticed in the local newspaper for comment prior to issuance of the permits.

We also offer regular mill tours to the public 3 days per week in the summer, or at other times by special request.

OMB No. 2010-

Expiration Date:

Section E

Application and Participation Statement.

On behalf of Stora Enso Duluth Mills
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

06/30/03

Expiration Date:

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

Air Pollution Regulations

Check all that apply

- ☐ 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- ☒ 2. Permits and Registration of Air Pollution Sources
- ☒ 3. General Emission Standards, Prohibitions, and Restrictions
- ☐ 4. Control of Incinerators
- ☐ 5. Process Industry Emission Standards
- ☐ 6. Control of Fuel Burning Equipment
- ☒ 7. Control of VOCs
- ☒ 8. Sampling, Testing, and Reporting
- ☐ 9. Visible Emissions Standards
- ☒ 10. Control of Fugitive Dust
- ☐ 11. Toxic Air Pollutants Control
- ☐ 12. Vehicle Emissions Inspections and Testing

Other (you must list these if applicable)

- ☒ 13. Federal, State, tribal, or local regulations not listed above.
Air permits - Minnesota Rules 7001.0010 to 7001.0210 and 7007.0050 to 7007.4030
- ☒ 14. ID Numbers (specify whether State or Federal).
State Air Quality Facility ID # 13700141, Title V Permit

Hazardous Waste Management Regulations

Check all that apply.

- ☒ 1. Identification and listing of hazardous waste (40 CFR 261)
 - ☒ - Characteristic waste
 - ☒ - Listed waste
- ☒ 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
 - ☒ - Manifesting
 - ☒ - Pre-transport requirements
 - ☒ - Record keeping/reporting
- ☒ 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)
 - ☐ - Transfer facility requirements
 - ☒ - Manifest system and record-keeping
 - ☐ - Hazardous waste discharges
- ☐ 4. Standards for Owners and Operators of TSD Facilities (40 CFR 264)
 - ☐ - General facility standards
 - ☐ - Preparedness and prevention
 - ☐ - Contingency plan and emergency procedures
 - ☐ - Manifest system, record-keeping, and reporting
 - ☐ - Groundwater protection
 - ☐ - Financial requirements
 - ☐ - Use and management of containers
 - ☐ - Tanks
 - ☐ - Waste piles
 - ☐ - Land treatment
 - ☐ - Incinerators
- ☐ 5. Interim Standards for TSD Owners and Operators (40 CFR 265)
- ☐ 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- ☐ 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- ☒ 8. Federal, State, tribal, or local regulations not listed above
Minnesota Rules 7001.0560, 7045.04900 - 0492, 7045.0496 - 0518
- ☒ 9. ID Numbers (specify whether State or Federal).
Haz Waste Facility # MND 982205494, Generator ID # MNR 000109983

Hazardous Materials Management

Check all that apply.

- ☐ 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- ☒ 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- ☒ 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- ☒ 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- ☒ 5. Community Right-to-Know Regulations (40 CFR 350-372)
- ☐ 6. Underground Storage Tank Regulations (40 CFR 280-282)

Other (you must list these if applicable)

- ☒ 7. Federal, State, tribal, or local regulations not listed above.
Minnesota Rules 7513.0100 - .0300
- ☒ 8. ID Numbers (specify whether State or Federal).
State Haz. Materials Shipper Mn/DOT # UPR-108594-MN, US DOT Haz. Materials
Registration ID 063003002027LN, Minnesota ERC 691250008, TRI Facility ID
55807LKSPR100NO

Solid Waste Management

Check all that apply.

- ☐ 1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
- ☐ 2. Permit Requirements for Solid Waste Disposal Facilities
- ☐ 3. Installation of Systems of Refuse Disposal
- ☐ 4. Solid Waste Storage and Removal Requirements
- ☒ 5. Disposal Requirements for Special Wastes

Other (you must list these if applicable)

- ☐ 6. Federal, State, tribal, or local regulations not listed above.
- ☐ 7. ID Numbers (specify whether State or Federal).

Water Pollution Control Requirements

Check all that apply.

- ☒ 1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
- ☐ 2. Designation of Hazardous Substances (40 CFR 116)
- ☒ 3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
- ☒ 4. NPDES Permit Requirements (40 CFR 122)
- ☐ 5. Toxic Pollutant Effluent Standards (40 CFR 129)
- ☒ 6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)
Name of POTW Western Lake Superior Sanitary District
ID # of POTW NPDES and State Disposal System (SDS) Permit # MN 0066206
- ☐ 7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
- ☐ 8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
- ☐ 9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
- ☐ 10. Water Quality Standards
- ☐ 11. Effluent Limitations for Direct Dischargers
- ☒ 12. Permit Monitoring/Reporting Requirements
- ☐ 13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
- ☐ 14. Collection, Handling, and Processing of Sewage Sludge
- ☐ 15. Oil Discharge Containment, Control and Cleanup
- ☐ 16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

- ☒ 17. Federal, State, tribal, or local regulations not listed above.
Above Ground Storage Tank Permit Program Minnesota Rules 7151.1100 - 7151.9600 and 7001.4200 - 4300
- ☒ 18. ID Numbers (specify whether State or Federal).
Industrial Pretreatment Permit #011, NPDES Stormwater Permit MN G611000, State AST Permit # 54516

Drinking Water Regulations

Check all that apply.

- ☐ 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- ☐ 2. National Primary Drinking Water Standards (40 CFR 141)
- ☐ 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- ☒ 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- ☐ 5. Underground Injection Control Requirements
- ☐ 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

Other (you must list these if applicable)

- ☐ 7. Federal, State, tribal, or local regulations not listed above.
- ☒ 8. ID Numbers (specify whether State or Federal).
MN DNR General Water Appropriations Permit (Temporary) 97-0005

Toxic Substances

Check all that apply.

- ☐ 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- ☐ 2. Import and Export of Chemicals (40 CFR 707)
- ☐ 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- ☐ 4. Chemical Information Rules (40 CFR 712)
- ☐ 5. Health and Safety Data Reporting (40 CFR 716)
- ☐ 6. Pre-Manufacture Notifications (40 CFR 720)
- ☐ 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- ☐ 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- ☐ 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

Other (you must list these if applicable)

- ☐ 10. Federal, State, tribal, or local regulations not listed above.
- ☐ 11. ID Numbers (specify whether State or Federal).

Pesticide Regulations

Check all that apply.

- ☐ 1. FIFRA Pesticide Use Classification (40 CFR 162)
- ☐ 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165)
